

Clutha District Council

Draft Annual Plan 2011 – 2012

For Trades Apprenticeship Training Trust would like
to speak to this submission

S u b m i s s i o n

Submission prepared by:
Warren Chambers
Manager
4Trades Apprenticeships
April 2011

INTRODUCTION

4Trades Trust, established in 2002, offers a range of services to businesses and apprentices. It has skills and experience in selecting potential apprentices in the Clutha District, finding host companies, and overseeing employment contracts, performance reviews, pay rises, as well as mentoring and distance correspondence. All this allows businesses to focus on training, coaching and encouraging their apprentice.

The Trust has a unique model that combines **ALL** aspects of apprenticeship management, giving equal support for both the apprentice and the business. Its success has seen a growth in skills, retention of valuable workers and businesses, the development and growth of businesses, as well as strengthened communities.

4Trades focus is to help address skill shortages and provide career pathways. It works with Enterprise Clutha's schools programme to provide advice and support to those students interested in trades. Training apprentices is a practical solution for employers and young people to build the economic strength of the District.

The current managed or mentored Clutha apprentices, who generally range in age from 16 to 24, work in businesses in areas as diverse as glazing, engineering, carpentry, plumbing and automotive.

Bradley Freeman, the first 4Trades apprentice in the Clutha District.

SUBMISSION

Apprenticeships

For Trades Apprenticeship Training Trust (4Trades) has for the last 6 years worked with employers, apprentices and schools in the Clutha District. 4Trades currently has 8 apprentices in a range of trades. This service is funded by the Trust and by the Employers. The Trust is keen to continue and enhance its level of support and to grow the programme but is faced with increased costs of delivery. We recommend that the Council contribute \$20,000 per annum to this programme to provide an apprentice/trade pathway for their youth and a sustainable supply of skilled labour for their communities. The Trust would welcome an opportunity to discuss this matter further with the Council.

District Development

We would like to support Enterprise Clutha as part of our submission. We continue to partner with them for the local delivery of 4Trades into the District. Your continued funding of Enterprise Clutha is a good investment for the local district and for those seeking employment and training options. We recognise that the development of the District requires a holistic approach combining economic and community development as provided by Enterprise Clutha.

Conclusion

4Trades values the support from the Mayor and Council of the Clutha District and looks forward to working with you in matters of supporting youth and trades training within the district and the wider Otago region.
